Co-funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Commission.

Co-funded by the European Union.

The EU-financed project Justice Without Litigation II (JuWiLi II) is a large-scale EU-funded project which addresses the current trend in a growing number of Member States to modernise their civil justice systems by transferring non-contentious tasks from the judiciary to other entities, such as notaries. By bringing together 29 organisations from 22 EU Member States the project further develops effective people-centred-justice solutions and aims at strengthening procedural standards as well as the rule of law. It seeks to develop strategies to unburden justice systems and to facilitate access to non-contentious procedures for EU citizens.
